

WORKOUTBANDS™

RESISTOR STRIP™

RESISTORSTRIP™

09751 - Resistor Strip™

Restore strength and improve flexibility with Resistor Strip™ – the only exercise band to offer a high quality digital imprint of exercises directly on the band. Each band is non-latex and can provide a user with an uncomplicated workout option outside the gym. They can be used by pro sports teams, as well as powerlifters. Great for stretching, as well as upper and lower body strengthening.

WORKOUTBANDS™

09701 - Workout Bands™

Workout Bands™ are a portable product that allow you to fit any toning, strengthening and stretching exercise into your daily routine and travel. Each pack includes three non-latex bands with light, medium and heavy resistance that provide both positive and negative resistance. When used properly they help improve strength, range of motion and flexibility of the muscles. They can even help restore muscle and joint mobility.

VALUE

They offer a wide range of flexibility and strengthening exercises that can produce results, when used as a part of a structured program. Different levels of training are available depending on individual goals. Compact and can be taken anywhere, from a hotel room to a practice field, or even at your computer desk.

WHERE TO SELL

The Resistor Strip™ and Workout Bands™ are sold through rehabilitation clinics, fitness centers, distributors, retailers and commercial channels that focus on gym and health maintenance.

TIPS

Can be used by everyone, anywhere. It is also used for patient rehabilitation, strength gain, cardiovascular benefits, foot agility, and weight lifting resistance. Serves as a well-controlled, and non-excessive tool.
