

POSTAL BANDS

Avoid potential business interruptions by using the proper rubber bands for bundling. Our Postal Bands are designed to meet or exceed the postal requirements for bundled parcels.

POSTAL BANDS

Alliance is the proud U.S. Manufacturer of Postal Bands for the U.S. Postal Service. Many businesses such as bulk mailers use these bands for bundling, filing and organizational purposes.

In 1997, we helped to establish the postal regulatory requirements as set out in the Federal Circular A-A 131B - Rubber Band Procurement Manual. This is the same version that's being used today. While the USPS does not set the quality standards for the rubber bands used by private customers, it still has the right to reject any bundled parcels which it feels may cause harm to its postal employees. This means that the US Postal Service will reject any parcel that is not securely and firmly held together as well as any parcel that it feels will break apart during processing at the Post Office. It is important to utilize the proper post office rubber bands with your parcels in order to avoid any potential business interruption.

To make sure these demands are met, Alliance offers the same postal rubber bands sold to the USPS to private customers through our distribution network. These rubber bands are guaranteed to meet or exceed all Postal requirements.

TIPS

These Postal Bands are available in three different grades of rubber. The perfect grade of rubber depends entirely on the type of hold and/or stretch you need for your particular application. Each item, no matter the grade of rubber, meets or exceeds USPS requirements.

WHERE TO SELL

- Bulk Mailhouses
- Commercial Printers
- Direct Mail Service Companies
- Office Supplies
- Schools and Universities

ITEM #	NSN	SIZE	LENGTH x WIDTH - PKG	CASE	MIN
