RUBBER BAND ACTUAL SIZE CHART 33

William H. Spencer

Founder

On March 7th, 2023, Alliance Rubber Company celebrated its Centennial Anniversary. This marked 100 years of Alliance offering our benchmark rubber bands and highest quality options for “Holding Your World Together.” Achieving a centennial milestone is rare, with less than two-tenths of 1% of U.S. companies reaching this mark.

It all began with William H. Spencer, who left his Franklin, Kentucky, home in 1904 at the age of 13. Traveling by rail to seek adventure, he found himself in Alliance, Ohio, in 1917 with less than \$3 in his pocket. After working for the Pennsylvania Railroad for six years, he began cutting bands by hand from rejected bicycle inner tubes and on March 7th, 1923, started Alliance Rubber Company.

Now in its fourth generation of family ownership, Alliance has continued the traditions started by Mr. Spencer. To that end, just like our products throughout the last century, we have doggedly stretched and flexed to meet the demands of the current market, to remain always sensitive to the pressures of the present environment, and to be always in touch with the needs of our customers. We have continually developed manufacturing principles to perfect processes, boost innovation, and reduce time to market in a fast-paced, volatile, ever-changing global marketplace. Based in Hot Springs, Arkansas, Alliance Rubber Company proudly manufactures the majority of its products in the USA using globally sourced materials. This approach ensures both transparency and quality in every item we produce.

INNOVATION MILESTONES

1923

Founded by William H. Spencer in Alliance, Ohio when he began slicing reject inner tubes into rubber bands.

1944

Production plant in Hot Springs, Arkansas opens.

1957

Invented and patented the world's first Open-Ring design, which set the world standard for efficiency and ease of application.

1969

The world's first continuous cure band production line was installed in our Alliance, Ohio plant.

1986

Launched the world's first imprinted Ad Bands®.

1988

Opened Salinas, CA division.

1993

Awarded Blue Chip Enterprise Award from the U.S. Chamber of Commerce.

1998

Added a specialty line of mailing, shipping & packaging supplies.

2012

Awarded Excellence in Innovation from U.S. Dept. of Commerce's National Institute of Standards and Technology.

2016

Better Business Bureau's Torch Award for Ethics.

2018

Official launch of ARCO® Silicone

2020

Manufactured Rubber Strips for PPE

2021

Governor's Award for Excellence in Global Trade During a Pandemic

2022

Awarded "Best Large Company to Work For in Garland Co."

2023

Ranked "Largest Woman-Owned Business in Arkansas" by Arkansas Business Publishing Group

HOLDING YOUR WORLD TOGETHER FOR OVER
Alliance[®]
 RUBBER COMPANY
100 YEARS
 -Centennial Celebration-
 1923-2023

OUR CULTURE OUR ROOTS

INNOVATION

In addition to the world's largest variety of rubber bands, we offer Resistor Strips™, ProTape®, and much more.

DIVERSITY

Our WBENC Certification as a WOSB (Woman-Owned Small Business) helps distributors provide products for both U.S. government set-asides and Fortune 500 Corporate Diversity purchases. We celebrate and encourage diversity in hiring, purchasing, and community support.

MADE IN USA USING GLOBALLY SOURCED MATERIALS

Based in Hot Springs, Arkansas, Alliance Rubber Company proudly manufactures the majority of its products in the USA using globally sourced materials. This approach ensures both transparency and quality in every item we produce.

REUSABLE PRODUCTS

Unlike many packaging items, rubber bands are reusable. The majority of our manufactured products are made from latex, a rapidly renewable resource.

A CORPORATE CULTURE OF RESPECT

We take pride in nurturing our associates to excel. In fact, 95% of our managers have been promoted from entry-level positions.

STANDARD BANDS

Our standard bands support a wide variety of industries around the world from mailhouses to manufacturing.

Custom bands are available by quotation.

PALE CREPE GOLD™

Superior rubber content makes this the gold standard of rubber bands – softest on hands, papers, and products.

FEATURES

- Softest, easiest stretch to help prevent carpal tunnel syndrome
- Highest rubber content
- Highest band count per pound
- Longest-lasting
- Exceeds federal specification A-A-131B for applicable sizes
- Made in USA using globally sourced materials

RECOMMENDED USE

- Repeat application
- Packaging and bundling

PACKAGING OPTIONS

- 1 lb. Box
- 1/4 lb. Box

OUR BOXES HAVE A CONVENIENT PERFORATED TOP FOR EASY PICKING

STERLING™

This band provides the ideal combination of reliable hold and cost-per-band savings.

FEATURES

- Best value per rubber band
- High rubber content
- Excellent band count per pound
- Soft, easy stretch helps prevent carpal tunnel syndrome
- Excellent memory for repeat use
- Meets federal specification A-A-131B for applicable sizes
- Made in USA using globally sourced materials

PACKAGING OPTIONS

- Crepe:** 1 lb. Box, 1/4 lb. Box, 1 lb. Bag
- Color:** 1 lb. Box

COLOR CHOICES

BEST VALUE

ADVANTAGE™

This band is ideal for everyday office, home, and industrial applications. It has higher tensile strength for a good, firm stretch.

FEATURES

- Midrange rubber content
- Good band count per pound
- Made in USA using globally sourced materials

RECOMMENDED USE

- Industrial applications
- Everyday use

PACKAGING OPTIONS

Crepe: 1 lb. Box, 1/4 lb. Box, 1 lb. Bag, 1/4 lb. Bag

FITNESS PRODUCTS

Workout Bands and Resistor Strips offer a wide range of flexibility and strengthening exercises that can produce results when used as a part of a structured program. Different levels of training are available depending on individual goals. Our Fitness Products are compact and can be taken anywhere, from a hotel room to a practice field, or even at your computer desk.

WORKOUT BANDS™

Workout Bands are a portable product that allow you to fit any toning, strengthening, and stretching exercise into your daily routine – even while traveling. Each pack includes three non-latex resistance bands with light, medium, and heavy resistances that provide both positive and negative resistance. When used properly they help improve the strength, range of motion, and flexibility of the muscles. They can even help restore muscle and joint mobility.

FEATURES

- 3 Pack includes different resistance levels: blue (light), yellow (medium), and red (heavy)
- Premium synthetic rubber
- Made in USA using globally sourced materials

RECOMMENDED USE

- Strengthen and tone
- Increase flexibility and mobility
- Physical therapy exercises

PARACHUTE BANDS

These heavyweight bands equip the military on parachutes used for free fall and jumping off the line in succession. They're also used by the skydiving community to ensure all lines are in place before the parachute fully inflates and to limit the amount of shock on the body.

FEATURES

- Made in the USA using globally sourced materials at our ISO 9001:2015 Certified Facility
- Used by the military as well as the skydiving community
- Produced IAW applicable MIL-SPEC DWG
- Cage Code: 46619
- Women-Owned Small Business (WOSB)

200 lb. Minimum Order

All bands produced in accordance with governing specifications.

POSTAL BANDS

Alliance is a proud manufacturer of rubber bands for the United States Postal Service (USPS).

While the USPS does not set quality standards for the rubber bands used by private customers, it still has the right to reject any bundled parcels which it feels may cause harm to postal employees.

You can avoid costly bundling errors by choosing the proper rubber bands. How does Alliance know which rubber bands are approved? We helped write the book on postal bands!

In 1997, Alliance helped to establish the postal regulatory requirements in the *Federal Circular A-A 131B - Rubber Band Procurement Manual* (the guide that outlines the Postal Service's quality standards for the rubber bands it purchases).

However, the US Postal Service no longer provides rubber bands to bulk mailers. To make sure these demands are met, Alliance offers the same postal rubber bands sold to the USPS to private customers.

2464306

FEATURES

- Guaranteed to meet USPS postal requirements
- Excellent memory for repeat use
- Firm and sturdy stretch
- Made in USA using globally sourced materials

ITEM #	NSN	DESCRIPTION	CASE/MIN
2464306	7510-01-368-3495	Postal Bands • 5 lb. Bag • Size #64 (3-1/2" x 1/4") • Crepe	25

In addition to Size #64 bands, The USPS also buys other standard sizes for its use. The sizes below are available in three different grades of rubber. The difference between each grade is the rubber content. This matters because the amount of rubber in the band determines how elastic it is, how long it lasts, and how easy it is to use.

The perfect grade of rubber depends entirely on the type of hold and/or stretch required for your particular use. Each item, no matter the grade of rubber, meets or exceeds USPS Regulations.

ITEM #	NSN	DESCRIPTION	GRADE OF RUBBER	COLOR	CASE/MIN

CUSTOM IMPRINTED BANDS

Various uses – from **wristbands** to **premium packaging** – make our Ad Band® the perfect flexible marketing tool.

Created in 1986, **Ad Bands®** are *the original printed rubber bands*. They provide the perfect opportunity to combine packaging, product information, and name branding in fun and innovative presentations.

Visit www.ADBANDS.com to learn more!

FOTOFLEX®

FotoFlex® wristbands are the world's first stretchable wristbands to feature a four-color imprint of digital graphics, allowing you to turn your rubber wristband into a mini-billboard for maximum promotional effect.

Made in USA using globally sourced materials

SOFT STRETCH SILICONE

Soft Stretch Silicone bands add a sleek and professional look to your promotional presentation.

- Great for delicate applications
- Rebounds without distortion
- Available in 2-1/2" to 12" lengths

Imported Product

SILICONE BRACELETS

Make a powerful statement with silicone bracelets. Available in adult and child sizes with a variety of branding options.

- Imprinted
- Debossed (with or without color fill)
- Embossed

Imported Product

RESISTOR STRIP™

These are the only exercise bands to offer **four-color, digital photo imprinting**.

This 3-1/2' long by 3" wide strip with its large imprint area offers a huge platform to include multiple logos, photography, and BIG messages. Each band is made with non-latex, premium synthetic rubber and can provide the user with an uncomplicated workout option outside the gym.

FEATURES

- Exercises printed on the band
- Premium synthetic latex
- 3-1/2' long by 3" wide
- Compact and easily portable
- Made in USA using globally sourced materials

RECOMMENDED USE

- Improve strength, flexibility, and body tone
- Workout at home or on the go
- Great for yoga or physical therapy exercises

WORKOUT BANDS™

Work-Out Bands™ are the best way to promote your message and a healthy lifestyle. This portable product allows you to fit toning, strengthening, and stretching exercises into your daily routine.

Each premium synthetic latex band is available in 14" and 20" lengths and three different resistance levels.

Made in USA using globally sourced materials

PRODUCE & FLORAL PRODUCTS

We work closely with growers to provide products that meet your needs in size, quality, stretch, and changing industry requirements. If the size you need is not shown, just give us a call.

IMPRINTED PLU BANDS

Unlike poly bags and twist ties, our price lookup (PLU) bands allow produce to be touched and seen with a fresher, more appealing look.

FEATURES

- FDA compliant for direct food contact
- Meet country of origin labeling requirements (C.O.O.L.)
- Waterproof, will never leave brown water spots or rust stains
- Gentle on produce, will not cut into tender items
- Allow consumers to see and touch the product
- Shrinks with produce as moisture is lost
- Reusable
- Made in USA using globally sourced materials

CUSTOM PROTAPES®

Want to increase brand recognition? Add your name and/or logo to any of our ProTape® options.

Imported Product

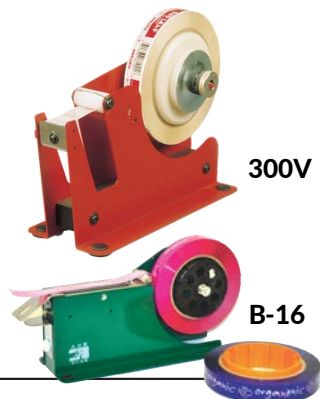

PROTAPE® DISPENSERS

These dispensers streamline your normal wrapping procedure, allowing you to manually dispense, wrap and cut any length of tape.

Imported Products

BASIC DISPENSERS

These basic dispensers allow easy handling and cutting of ProTape® for manual application. Both have a lightweight and durable construction making them ideal for flexible low-volume applications. The B-16 can accommodate 3" - 3.5" cores.

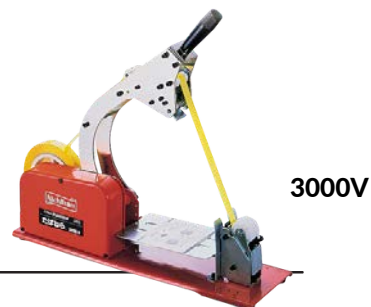

LARGE BUNDLE DISPENSER

This economical dispenser features an application plate to measure, cut, and apply ProTape® to asparagus, spinach, leafy lettuces, green onions, and other fresh vegetables. The 300V-II is lightweight, durable, and versatile.

SEMI-AUTOMATIC DISPENSER

With the push of a hand this semi-automatic dispenser measures, wraps, and seals to make a secure and attractive bundle. The 3000V is three times faster than the pull and cut dispensers and is built to give hassle-free service.

ELECTRIC DISPENSER

When two hands are required to handle your produce, this electric ProTape® Dispenser can be activated by the foot pedal feature. The 5000V is built for ease of application.

SEAFOOD BANDS

PLAIN OR PRINTED BANDS

Whether you're fishing for lobster, crab, geoduck, clams, or oysters, we have bands to fit your needs. Our bands have been used for over 50 years in the commercial fishing industry from banding to packaging and promoting your seafood.

Catching - *Band It!*

Our natural latex rubber bands are FDA-compliant for direct food contact and can withstand cold temperatures while maintaining their hold strength and stretch.

Packaging & Tracking - *Trace It!*

We are able to imprint traceability information directly on your bands along with the fishing boat number to help guarantee the freshness and quality of the seafood at its final destination.

Promoting - *Brand It!*

Continue to market and brand your company and product even after the catch! Let us print your company name and/or logo on your seafood bands to help promote you.

FEATURES

- Made from natural latex rubber
- FDA compliant for direct food contact
- Available in standard colors red, blue, yellow, green, and tan
- Also available in custom colors and sizes
- Made in USA using globally sourced materials

RUBBER BAND ACTUAL SIZE CHART

FLAT LENGTH

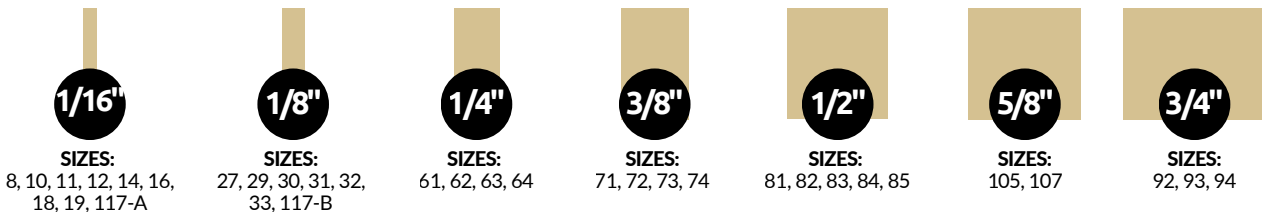

HOW TO MEASURE A RUBBER BAND

Rubber bands have three core measurements that communicate their dimensions: flat length, band width, and wall thickness. To measure a rubber band, pinch at each end to lay the band flat. The distance from end to end is the flat length. Perpendicular to the length is the band width. The wall thickness measures the thickness of the band.

BAND WIDTH
