

EPDM BANDS

EPDM Bands provide incredible resiliency for a wide range of applications. The tight stretch and heavy wall that this synthetic rubber provides makes all of our EPDM products rugged enough to handle outdoor applications in extreme conditions.

EPDM

Heavy Duty Bands

EPDM (Ethylene Propylene Diene Monomer) all-weather bands are UV and ozone resistant and are not affected by changes in temperature. These attributes make EPDM the perfect banding/bundling material for all-weather outdoor use. It offers a tight stretch and heavy wall that is designed for heavy duty usage by Industrial Pipefitters, Excavators, Plumbers, and more!

- 100% Non-Latex
- Extruded up to a ten inch flat length
- Camo patterned EPDM is available as a custom imprint

VALUE

EPDM Bands are more durable and long lasting than regular rubber bands, making them the solution for industrial and outdoor use.

WHERE TO SELL

Manufacturing
Plumbing
Automotive
Industrial Pipefitters
Military & Government
Construction
Parks & Recreation
Mining & Excavation

TIPS

EPDM Bands and Tubing are designed specifically for heavy-duty usage. These products are versatile and useful in a wide range of applications such as securing core boxes for mining and excavation or bundling survival gear during military training exercises.
