Attn: Takashi Miyamoto

Subject: FDA Compliance Statement for Nichiban's Protape

Intertek, on behalf of Nichiban Co, has conducted an FDA regulatory evaluation of their Protape. The intended end-use of the tape is to wrap/bundle produce at room temperature conditions. The regulatory evaluation was based on the following:

- A comprehensive FDA compliance review of all of the substances used in the manufacture of the Protape
- Toxicological/Safety Assessment conducted on pigments
- Analytical Studies (Ref: RE15506A)

Based on this evaluation, Intertek has determined that Nichiban's Protape is in compliance with US FDA 21 CFR citations for use in food contact applications, intended for use in wrapping/bundling produce at room temperature.

Kind Regards,

Jennifer Cioffi
