

FLORAL TAPE

We proudly offer several options of Waterproof Floral Tape. These specialty tapes are designed for bundling floral and ornamental plants as well as securing delicate stems when they require additional support.

FLORAL TAPE

Alliance proudly offers several options of Waterproof Floral Tape. These specialty tapes are designed for bundling floral and ornamental plants as well as securing delicate stems when they require additional support.

All Floral Tape, including our Orchid Tape, is waterproof and can even be applied to bundles or arrangements that are wet. One unique feature of ProTape® is that it can be opened and resealed time and again without losing effectiveness. Additionally, ProTape® tape does not adhere to other surfaces (such as stems or leaves); it sticks only to itself. ProTape® is available in Standard or Custom designs.

Our Floral Tape:

- Is waterproof
- Secures delicate branches or large bundles with ease
- Is available in various sizes and colors

WHERE TO SELL

- Floriculture Supply Stores
- Floral Packing Companies
- Ornamental Plant Packing Warehouses
- Floral Nurseries & Wholesalers
- Commercial Growers

TIPS

Promote your brand and achieve recognition in the market by printing logos, codes, website, country, and/or messages on any of our ProTape® options.
