## VALUE

Studies have shown that frequently touched objects that cannot readily be sanitized, such as keyboards, pens, and rubber bands are often heavily populated with bacteria. Our Non-Latex™ Rubber Bands with Antimicrobial Product Protection include an antimicrobial agent to make them resistant to microbes such as bacteria, mold, and fungi.

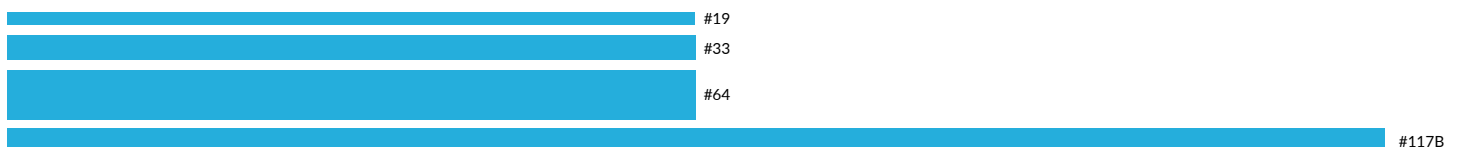

## WHERE TO SELL

Ideal for industrial & laboratory applications, home, school, workplace, medical facilities, medical supply wholesalers, medical parts, packaging & manufacturing.

## TIPS

With the arrival of superbugs, offices of all kinds are looking for options to keep germ-free, especially during flu season. Now is a great time to start investing in antimicrobial products. Reducing the spread of harmful germs means less employees needing time off work, which results in more overall productivity for any organization.

## ACTUAL SIZE CHART

Not made with natural rubber latex.  
Made in a facility where latex products are produced.
