

NON-LATEX PRODUCTS IN HIGH DEMAND

The supply of bands and strips for personal protective equipment (PPE) such as medical masks, face shields, and ventilators is our top priority to help keep first responders and healthcare providers healthy during this pandemic.

Recent innovations in our manufacturing have allowed us to produce Non-Latex® Rubber Bands for Face Masks, Non-Latex® Rubber Bands to secure tracheotomy vent tubes, as well as Non-Latex® Rubber Strips for Plastic Face Shields.

In addition to these items, we can manufacture Non-Latex® Tourniquets with Antimicrobial Product Protection.

Non-Latex® Rubber Strips

Our Non-Latex Rubber Strips are ideal for personal protective equipment (PPE) such as medical masks, face shields, and ventilators. Each strip is made from synthetic rubber and helps to hold masks in place while being worn. These can either be looped behind ears or tied behind the head. The strips are suitable for all kinds of masks being used by medical staff in the midst of the coronavirus pandemic.
