

# TWINE

All purpose polyester-cotton blended twine is soft, versatile and economical. Consistent production resists binding and works for a wide range of applications.

# TWINE

All purpose polyester-cotton blended twine is soft, versatile and economical. Consistent production resists binding and works for a wide range of applications.

Features:

- Light to medium duty
- Forms tight, strong knots
- Soft & extremely flexible

## VALUE

Twine is used to truss poultry, pork or beef and allows for the retention of juicy flavors of the meat, ensuring even cooking and easier carving.

## WHERE TO SELL

Twine is an essential item for many food processors and packers. It is also a popular item for many grocery stores, supermarkets, retail chains, convenience stores, food wholesalers, ethnic grocers and organic food outlets.

## TIPS

Twine is extremely versatile and can be used to secure asparagus for steaming or bundle herbs to flavor soup or sauce. It is handy to wrap newspapers or magazines for recycling, create or hang decorations, create straight garden rows, secure plant stems, or even hang and dry herbs.
